Requirements for Full Membership

❖ Qualifications

1. Have a relevant Diploma from the 3 or 4-year training course in Psychophonetics authorised by Psychophonetics Institute International (PII) or its predecessors (Persephone College in Australia, Persephone Inst. of Psychophonetics in South Africa, Persephone College UK), and signed by Yehuda Tagar, the PII director; by Dr Robin Steele, PII Director (Australia); or by other co-directors of PII authorised by Yehuda Tagar.
2. **Practitioners have completed Psychophonetics professional training AFTER 2018**—date of the first completion of the new version of Psychophonetics professional training which includes the competencies of Methodical Empathy.
3. **Practitioners who have completed the Psychophonetics training course BEFORE 2018:** *Submit a case report of one (1) client session,* demonstrating a complete Psychophonetics professional session with a client, including both Conversational and Action phases, from the past year.
4. **Evidence of public acknowledgement that what the practitioner is practicing is also Psychophonetics**—so that clients are able to compare their work in relationship to the standards of the continuous brand of Psychophonetics, available in the public domain. Evidence can include publicity material, website and Facebook postings and public presentations from the past year. For practitioners who have not advertised publicly, evidence from members of Psychophonetics supervision or peer groups, in which the practitioner acknowledges that what they are

offering is or includes Psychophonetics practice. IAPP has no other way of knowing if what the practitioner is actually practicing is or includes Psychophonetics.

If what they are doing is called something else, the public has no way to know and checkup what they are doing is up to the ethical and professional standards of Psychophonetics. It is suggested that if a practitioner has a number of different qualifications and offers a range of services, that their publicity includes a list of modalities available (including Psychophonetics), so that clients are aware and can choose.

❖ Professional Practice

5. Practitioners are currently in active practice, and give evidence by testimony of professional Psychophonetics practice with clients of at least an average of 1 client session per week per year (*meaning, at least 52 client sessions per year*)
6. **Commitment to ethical Psychophonetics practice** of counselling and psychotherapy according to IAPP code of ethics and guidelines for practice.

❖ Professional Supervision

7. Testimony of professional supervision (post training)—face-to-face, group, and including peer supervision by Psychophonetics practitioners—minimum of 1.5 hours average per month per year (*total of 18 hours per year*).

❖ Continuing Professional Development (CPD)

8. Evidence of CPD—minimum of 30 hours per year, at least 50% of which is based on Psychophonetics authorised by PII (Psychophonetics Institute Intl) and IAPP.

❖ Insurance (optional)

9. IAPP prefers practitioners have and are covered by professional indemnity insurance but it is not a requirement of membership. IAPP considers insurance cover as an individual matter.

❖ Fees

10. Annual fees: €50

DEFINITIONS

➤ Client contact

Client contact is defined as a client who has no pre-existing personal/non-professional relationship with the counsellor/ psychotherapist. Client contact hours comprise: live contact with the client only, in person, on zoom, by telephone. Case presentation, supervision, observation, and note-taking are not part of client contact hours.

➤ Professional Supervision

A specialised form of professional mentoring provided for practitioners responsible for undertaking challenging work with people. Supervision is provided to ensure standards, enhance quality, stimulate creativity and support the sustainability and resilience of the work being undertaken. Professional supervision (post training) can consist of a mix of one-to-one with a supervisor, group supervision with a supervisor, and for Full members, peer supervision can also be included. A minimum of 50% of one-to-one and group supervision hours are recommended to be with a Psychophonetics trained supervisor.

Professional Supervision may consist of:

- a) *reflection on counselling practice*: one supervisor to one counsellor either face to face or via zoom, or mobile;
- b) *reflection on counselling practice*: one supervisor to a group of not more than six (6) counsellors.

Peer Supervision for registered Full members

- a) Peer Supervision does not require the presence of a designated supervisor, and is a formal collaborative process in which case material

from the supervisee's own practice experience is reflected upon and reviewed by peer(s).

- b) Peer Supervision may consist of:
- *reflection on counselling practice*: one counsellor to one counsellor either face to face or via zoom or mobile);
 - *reflection on counselling practice*: a group of not more than six (6) counsellors.
- c) Peer Supervision may be used by Full Members for up to 50% of the professional supervision requirement for Full Professional Membership of the Association and for the annual renewal of membership of the Association, as long as it is interspersed with regular Professional Supervision.

➤ **Continuing Professional Development (CPD)**

CPD activities are to be relevant to clinical practice and to core competencies of counselling and psychotherapy. Such activities may include workshops, seminars, lectures, courses and conferences presented by appropriately qualified practitioners who are recognised by our profession as having advanced expertise in the topic being addressed. It is recommended that a minimum of 50% of CPD hours to include Psychophonetics.

➤ **Insurance**

A premium paid for protection from financial or other types of losses. Adequate professional practice and public indemnity insurance cover means having a sufficient amount of cover to protect clients from any loss or harm arising from the practitioner's professional and occupier's liability, if something went wrong.
